- Applicant(s) submit herewith *Form PTO 1449A - Information Disclosure Statement by Applicant* together with copies of patents, publications or other information of which applicant(s) are aware, which applicant(s) believe(s) may or may not be material to the examination of this application and for which there may be a duty to disclose in accordance with 37 CFR 1.56. As required by 37 C.F.R. § 1.98(a), a legible copy of each document is provided.
- A concise explanation of the relevance of foreign language patents, foreign language publications and other foreign language information listed on PTO Form 1449, as presently understood by the individual(s) designated in 37 CFR 1.56(c) most knowledgeable about the content is given on the attached sheet, or where a foreign language patent is cited in a search report or other action by a foreign patent office in a counterpart foreign application, an English language version of the search report or action which indicates the degree of relevance found by the foreign office is listed on the form PTO 1449 and is enclosed herewith.

The following rights are reserved by the Applicant(s): the right to establish the patentability of the claimed invention over any of the listed documents should they be applied as reference, and/or the right to prove that some of these documents may not be prior art, and/or the right to prove that some of these documents may not be enabling for the teachings they purport to offer.

This statement should not be construed as a representation that an exhaustive search has been made, or that information more material to the examination of the present application does not exist. Any statements or identifications regarding the relevance of any portion(s) of cited references should not be construed as a representation that the most relevant portion(s) have been identified, and the absence of such statements or identifications should not be construed as representations that there are no relevant portion(s). The Examiner is specifically requested not to rely solely on the materials submitted herewith. The Examiner is requested to conduct an independent and thorough review of the documents, and to form independent opinions as to their significance.

As cited in attached form PTO-1449, Applicant made and used a client-server software package which was operable to remotely monitor only AC plant characteristics more than one year prior to the filing of the present application. The client-server based package enabled the user to remotely monitor the AC plant characteristics, and perform a remote startup of the AC plant.

As cited in attached form PTO-1449, Applicant made and used a backup generator having a dialup connection, which was operable to reply to requests for data from the AC plant. The dialup connection was made and used more than one year prior to the filing of the present application. The dialup connection was an ASCII interface, could only manage one location at a time, and required that the technician call the number, connect to the AC plant, and inquire manually for each item of information desired. The dialup connection did not allow for remote startup of the AC plant, nor could a technician determine whether the AC plant was running without calling the site to inquire.

It is requested that the information disclosed herein be made of record in this application and that the Examiner initial and return a copy of the enclosed PTO-1449 to indicate the documents have been considered.

It is believed that no fees are required to accompany this information disclosure statement, since the disclosed statements and references have been previously provided and the present submission is provided to correct informalities in a prior submission, such as inclusion of dates to accompany the enclosed statements and adding a leading zero to the citation for the enclosed reference. However, in the event that additional fees are necessary to allow consideration of this paper, such fees required therefor (including fees for a request for continued examination) are hereby authorized to be charged to deposit account no. 20-0778.

Respectfully Submitted,
